The continuation of
Terrestrial Magnetism and Atmospheric Electricity
(1896-1948)
An International Quarterly

Fields of Interest

Terrestrial Magnetism
Atmospheric Electricity
The Ionosphere
Solar and Terrestrial Relationships
Aurora, Night Sky, and Zodiacal Light
The Ozone Layer
Meteorology of Highest Atmospheric Levels

The Constitution and Physical States of the
Upper Atmosphere
Special Investigations of the Earth's Crust
and Interior, including experimental seismic
waves, physics of the deep ocean and ocean
bottom, physics in geology
And similar topics

This Journal serves the interests of investigators concerned with terrestrial magnetism and electricity, the upper atmosphere, the earth's crust and interior by presenting papers of new analysis and interpretation or new experimental or observational approach, and contributions to international collaboration. It is not in a position to print, primarily for archive purposes, extensive tables of data from observatories or surveys, the significance of which has not been analyzed.

Forward *manuscripts* to one of the Associate Editors, or to the editorial office of the Journal at 5241 Broad Branch Road, Northwest, Washington 15, D.C., U. S. A. It is preferred that manuscripts be submitted in English, but communications in French, German, Italian, or Spanish are also acceptable. A brief abstract, preferably in English, must accompany each manuscript. A *publication charge* of \$8 per page will be billed by the Editor to the institution which sponsors the work of any author; private individuals are not assessed page charges. Manuscripts from outside the United States are invited, and should not be withheld or delayed because of currency restrictions or other special difficulties relating to page charges. Costs of publication are roughly twice the total income from page charges and subscriptions, and are met by subsidies from the Carnegie Institution of Washington and international and private sources.

Back issues and *reprints* are handled by the Editorial Office, 5241 Broad Branch Road, N.W., Washington 15, D.C., U.S.A.

Subscriptions are handled by the Editorial Office, 5241 Broad Branch Road, N.W., Washington 15, D.C., U.S.A.
